This is with regards to "Clean to Green" campaign that we would like to conduct in your school on the importance to sensitize and impart knowledge among the students about the proper management, disposal and channelizationof E waste, thereby reducing the impact of hazardous substances on the environment. School Health Annual Report Programme (SHARP) is an 20 year old non-government organization (NGO) working for the overall development of a child right from healthcare to overall personality which includes physical, mental, social as well as psychological health.

School going children represent over 25% of the population in India. It is imperative that students should be educated about the importance of E- waste as it is an important global environmental and health issue.

To address these needs, SHARP NGO along with RLG team has come up with a campaign named "Clean to Green" where the programme will be conducted in an assembly hours.

SHARP NGO takes this opportunity to invite your esteemed school to become part of this programme. Please join hands with us to become an integral part of this transformational process in order to ensure a greener environment to our future..

We look forward to your active & sustained participation to take 'clean to green' forward, with SHARP NGO.Please find the attachments and confirm the suitable dates, for us to conduct the session soon. The strength of the school should be around 600.
